## ATHENS

Is All Torn Up Over the Proposal to Translate

Gospels Into Modern Greek.

Thousands Participated in a Row Which Resulted in the Death of Seven Persons and the Serious Injury of a Myriad of Others.

Athens, Nov. 22.—The agitation continues against the proposal to translate the Gospels into modern Greek. Twenty thousand persons assembled around the grounds of the temple of Jupiter Olympus and took part in a demonstration organized by the students. A resolution was passed calling on the holy synod to excommunicate any person who translated the Gospels into Greek as now spoken. Eight hundred marines were landed and co-operated with the troops in suppressing the locality. Several collisions occurred.

During the demonstrations following the assembly several shots were fired at M. Theotokis, the Greek premier, but without effect. Seven persons were killed, 30 were severely and many others slightly wounded. Great excitement prevails. Strong military detachments guard the palace and the residence of the premier. Everywhere various groups are discussing the situation. Heartrending scenes occurred when the bodies of the dead were handed over to their relatives. It is rumored that armed men have arrived at the university, but the building is self-guarded by the students, who are adopting military discipline. Among those slightly injured are the prefect of police of Athens and the prefect of Attica. A political motive connected with the Slav propaganda in Greece, underlies this religious movement.

A force of 300 marines has been landed to help maintain order. As a result of the demonstrations of the day the metropolitan has resigned office. The commander of the gendarmerie and the prefect of police have also resigned. General Vassos has been placed in command of the armed forces.

**Germany Aroused.**  
London, Nov. 22.—The fact that the anti-Chamberlain agitation in Germany has at last extracted a semi-official expression of approval from the North German Gazette has had the effect of convincing the British press that the situation is becoming serious. Therefore there had been a disposition to disregard and belittle the influence of the agitation. Now the papers are taking trouble to ex-

plain that Mr. Chamberlain's words were not intended to insult or offend Germany. "The temper of the German public is dangerous," says The Morning Post, "and it behooves our people to be on their guard. The Germans appear to regard Great Britain as covetous, rapacious and barbarous. From that belief to the corollary that a barbarous nation ought to be suppressed is a short and easy step."

**French Miners Talk Strike.**  
Paris, Nov. 22.—The situation in the mining centers of France is again approaching a climax. The next day or two will see a definite decision upon the question of a general strike. The result of the recent referendum, which while it gave a majority in favor of the actual number who voted, actually indicated that a very considerable number of the miners were either opposed to a strike or not enthusiastic. Impelled the federation officials to put off a strike declaration on the plea that it was advisable to await the decision of the commission of the chamber of deputies engaged in studying the demands of the miners. It now appears unlikely that the commission will satisfy these demands, and the extreme partisans are endeavoring to force the hand of the federation officials in favor of a strike.

**Dickinson to Depart.**  
Sofia, Nov. 22.—Mr. Dickinson, the diplomatic agent here of the United States, will leave this week for Constantinople. There is obviously no prospect of a settlement with Miss Stone's abductors. The departure of Mr. Dickinson will probably have a good effect upon the brigands who have Miss Stone in their possession, as they may fear to lose everything by not accepting Dickinson's proposals.

**Contest in Galway.**  
Dublin, Nov. 22.—The voting in the parliamentary contest in Galway between Colonel Arthur Lynch, pro-Bour, and Herbert Plunkett, Unionist, is very brisk and the excitement is increasing. A large contingent of Lynch's supporters have arrived from the country and the police are kept busy averting collisions between the two factions.

## TRAGEDY

Was Enacted Before Hundreds of People.

Bar Keeper Cut His Wife's Throat

And the Crowd were Determined to Lynch Him for the Deed But the Police Prevented.

Special by wire to Times-Democrat.  
Chicago, Nov. 22.—On Madison street this morning before thousands who were going to work, Paul Warsaw, a bar keeper, cut and slashed his wife with a razor about the neck. The crowd rushed in and there would have been lynching had the police not hurried in and quelled the crowd. The woman is dying and Warsaw is in jail. Jealousy caused the trouble.

## ANARCHISTS

Will be Worked Against by Both Powers.

Germany and Russia Form an Alliance

Which Contemplates an Offensive and Concerted Action Against These Common Enemies of the Civilized World.

Special by wire to Times-Democrat.  
Berlin, Nov. 22.—The foreign office confirms the report that negotiations are on between Germany and Russia for the promulgation of a common measures against anarchists. Other powers have been invited to join in the action, but it will probably not be necessary to summon a conference.

**Mollinex Brief.**  
New York, Nov. 22.—The brief on behalf of Roland B. Mollinex upon the motion to quash the indictment against him and for inspection of the minutes of the grand jury, was served upon Judge Newburger. A decision is expected the first week in December. Mollinex's counsel raise the new point that the introduction of the Barnes evidence before the grand jury was illegal in that it charged Mollinex with committing forgery as well as murder.

**Engine Turned Over.**  
Pine Bluff, Ark., Nov. 22.—Near Gosman, about 30 miles north of Pine Bluff, the engine of a Cotton Belt fast freight jumped the track and turned over. Conductor Walter Noble of Jonesboro was killed, and brakeman, fireman and engineer were seriously and probably fatally injured. Six cars were demolished and the track blocked for several hours.

## COOL

Behavior of Fellow Charged

With Murder

And Arrested by Posse of Fifty Men.

He Confessed to Having Shot Two Men With Fatal Results

And Gave a Detailed Account of the Deed. Also Made a Statement Before the Coroner's Jury.

Oxford, Miss., Nov. 22.—Will Mathis, the alleged murderer of the two Montgomerys, who gave himself up to officers at Dallas, 20 miles southeast of this place, was brought here by a posse of 50 armed men. When first arrested, it is said, Mathis confessed to having shot the two Montgomerys, and gave a detailed account of the deed which tallied with the confession made by the negro Orlando Laster. Upon reaching Oxford, Mathis voluntarily made a statement before the coroner's jury, which has been sitting on the case since last Sunday. He denied having done the shooting, and says that he held the lamp and a pistol while the negro, Orlando Laster, did the shooting. Mathis said he regretted having burned the bodies, but also regretted not killing other parties who had attempted to arrest him. The jury that sat on the case of the two Montgomerys found that they came to their death at the hands of Will Mathis, Orlando Laster and Whit Owens, and they will be held in jail without bonds.

## NEW RIGHTS

Given the People Under This Decision.

A Chicago Judge Says Cities Have a Voice as to Street Car Service.

Special by wire to Times-Democrat.  
Chicago, Nov. 22.—In a test case the Union Traction Co., of this city, was fined \$200 for not providing enough cars to accommodate the public. If sustained by the higher courts cities can claim the right to determine how many cars and what kind of service shall be given.

## DECISION

Made by the Revenue Department

Will Take Nearly One Million Dollars

As an Inheritance Tax from the Heirs of the Late Cornelius Vanderbilt on Property He Left.

Special by wire to Times-Democrat.  
New York, Nov. 22.—Solicitor General, of the Internal Revenue department in Washington, has decided that heirs of late Cornelius Vanderbilt must pay \$316,803.43 as the Federal government inheritance tax on \$2,999,867 personality of the late millionaire. The reality he left amounted to \$25,000,000 and the state tax on the estate was \$502,956, bringing the total up to \$882,801.

## RESIGNATION

Is Asked for But Bishop Does Not Comply.

Special by wire to Times-Democrat.  
Rome, Nov. 22.—The Vatican has given the Bishop Matz, of Denver, to understand that it desires his resignation, owing to his difficulties with the Irish-American clergy of Denver. Matz is not inclined to comply.

## THE OLD WAY

Of Treating Stomach Trouble and Indigestion, a Barbarous and Useless One.

We say the old way but really it is the common and usual one at the present time and many dyspeptics, and physicians as well, consider the first step in attempting to cure indigestion is to diet, either by selecting certain food and rejecting others or to greatly diminish the quantity of food usually taken.

In other words the starvation plan, is by many, supposed to be the first essential in the cure of weak digestion. The almost certain failure of the starvation cure for stomach trouble has been proven time and again, but still the usual advice, when dyspepsia makes its appearance, is a course of dieting.

All this is radically wrong. It is foolish and unscientific to recommend dieting or starvation to a person suffering from dyspepsia because indigestion itself starves every organ and every nerve and fibre in the body. What is needed is abundant nutrition, not less, and this means plenty of good, wholesome, well-cooked food and some natural digestive to assist the weak stomach to digest it.

This is exactly the purpose for which Stuart's Dyspepsia Tablets are adapted and this is the way they cure the worst cases of stomach trouble.

The patient eats plenty of wholesome food, and Stuart's Dyspepsia Tablets digest it for him.

And this is in accordance with nature and common sense because in this way the whole system is nourished and the over-worked stomach rested, because the tablets will digest the food, whether the stomach works or not one of Stuart's Dyspepsia Tablets will digest 1500 grains of meat, eggs and food.

Any druggist will tell you that Stuart's Dyspepsia Tablets is a remedy of extraordinary value and probably is the purest and safest remedy for stomach troubles.

No person suffering from poor digestion and lack of appetite can fail to be immediately and permanently benefited if they would make it a practice to take one or two of Stuart's Dyspepsia Tablets after each meal.

## BOYS

Arrested on the Charge of Stealing Coal.

Edward Moulgan, Emery Monigan, Walter South and Clarence South, all four boys scarcely in their teens, spent last night in the county jail, the charge against them being preferred by the C. H. & D. railroad. The affidavit states that they have stolen coal from the company amounting to \$7. Their parents were notified but failed to appear for the purpose of giving bond and Justice Duffield had only one recourse left and that was to send them to jail. They were brought out this afternoon and the hearing is now being conducted in the presence of a large number of interested spectators.

## MILITIA

Is Preparing for Trouble in the Striking Miners' Camp.

More Troops Will be Sent Out

If the Resistance Offered by the Miners is Too Great for the Militia Aided by the Civil Officers Who are Now Upon the Ground.

Earlington, Ky., Nov. 22.—In the coal mine regions the stories are conflicting. All of the striking miners have been ordered by President James D. Wood of the United Mine Workers of this district to report to the Nortonville camp at once. When this order was issued runners were sent to the various quarters of the district where the men assemble. The strikers are mobilizing, coming in squads from all sections. The Madisonville men are traveling over the country to Nortonville. Most of them carry their arms. Men have been straggling in all day. In the case of resistance on the part of the miners, Adjutant General Murray has two companies of militia on hand. It is probable that Battery A of Louisville and other troops will be called. If the coal operators are called upon they can furnish 300 or 400 good tried men.

Another story is that the miners will move to a point across Pond river, in Muhlenberg county, just over the Hopkins county line, where they will establish a camp. General Murray and Judge Hall held a long conference, at which their plans were

discussed. President Wood of Central City said he had been in conference with officials of the United Mine Workers concerning a line of policy. He expressed the opinion that the men would not disband. He says he does not look for trouble with the militia and that he considers the general situation very satisfactory. There are at present 150 men in camp. President Wood stated, and the force could be raised to 1,500 men within 12 hours.

**To Break Up Miners' Camps.**  
Frankfort, Ky., Nov. 22.—John Brasher and Representative Bradley of Hopkins county, representing the miners camped in that county, who are resisting the attempt of County Judge Hall to disperse them, were here in conference with Governor Beckham to ascertain whether the state troops stationed at the mines will be used to break up the camps. At the close of the interview the governor said the troops would remain under the orders of Judge Hall and would do as he directed. Judge Hall's injunction to the miners was to break camp by Saturday next or he would disperse them with the aid of troops.

## TRIAL

Of Mrs. Bonine Who is Charged

With Murder

Progressing and Promises a Sensation.

The People Connected With the Homicide are All Promising

And the Eyes of Many are Turned Toward the National Capitol Where the Cause is Up for Trial.

Washington, Nov. 22.—The trial of Mrs. Lola Bonine on the charge of killing James Seymour Ayres, Jr., has been fairly launched. The preliminary presentation of the case on behalf of the government was made by Assistant District Attorney Hugh T. Taggart, and after he had concluded a number of witnesses were heard. Mr. Taggart's statement consumed only about an hour and 15 minutes, and consisted for the most part of a review of the circumstances connected with the tragedy. Mr. Taggart stated the theory of the prosecution to be that Ayres was murdered by Mrs. Bonine, and that she gained admission to his room in the Kenmore hotel through the window, reaching it by means of the fire escape. He attempted to show that she was piqued by his non-attention to her. Mrs. Bonine apparently was unmoved by his representations. Once or twice during the address she leaned over and spoke to her attorneys. The witnesses did not throw any new light upon the killing.

## BISMARCK'S FRIEND

And Staunch Supporter Died This Morning.

Special by wire to Times-Democrat.  
Berlin, Nov. 22.—Count Von Hatzfeldt, the late German Ambassador at London, died this morning. He was one of the Bismarck's staunchest supporters and did great service for Prussia during the Franco-Prussian war. He was born in 1831.

## SHOT

To Death in Joplin's Streets.

Ready Pistol

In the Hands of the Man Assailed.

Sent a Lead Messenger Quickly to a Fatal Spot.

Sad Outcome of a Divorce Suit in Which a Husband, Defendant, Became Jealous and was Killed.

Joplin, Mo., Nov. 22.—J. E. Grayson, a prominent attorney, was shot and instantly killed by George E. Bayne, superintendent of the water works. Grayson and wife have been separated a year or more and Grayson, it is said, believed Bayne, who is a widower, was intending to marry Mrs. Grayson as soon as she was divorced. Eye witnesses say that Bayne was standing on the corner of Fourth and Main streets when Grayson came up to him and said: "You'll have to get right out of town. You can't live in the same town with me." Grayson followed this declaration with a blow of his fist, striking Bayne in the face. Bayne had been reaching in his overcoat pocket, and when struck drew a revolver and fired.

## CROWDED

Music Hall to the Doors Last Night.

Hundreds Attend Magnificent Church Fair.

Social Talent Assists in Entertaining the Visitors With an Informal Program—New Features Tonight.

The church fair which is being held in music hall by the ladies of St. John's church congregation for the benefit of that church, is receiving greater patronage each evening and is pronounced a magnificent success. The ladies and the committees of gentlemen who are assisting them are sparing no effort necessary to the success of the fair and they are being well rewarded for their earnest work.

Last night the hall was crowded to the doors and the patrons were well entertained. Messrs. John Maher, Kelly and Guinan and Beall, of the Buffalo minstrels, and Miss Mayme O'Brien contributed to last night's informal program of entertainment. Miss Alice Cunningham officiating in her usual efficient manner at the piano. This evening some additional features will be added for the entertainment of the visitors at the fair.

## THE PRESIDENCY

Of Colombia Will be Tendered to General Reyes.

His Countrymen Say He is the Man Who Can Restore Order Out of the Present State of Chaos.

City of Mexico, Nov. 22.—General Rafael Reyes of Colombia arrived here as a delegate to the pan-American conference. When he was shown the dispatch announcing the taking of Colon by the Colombian Liberals, General Reyes said he would not like to talk until he had received official advice. Without attempting to minimize the importance of the news, he said that the latest turn of affairs might easily prove to have been a trap laid by General Alban to catch the insurgents.

When asked whether he would accept the presidency of Colombia and whether this Liberal success would cause any change in his plans, he said: "I prefer not to say whether I will accept the presidency until I have conferred with General Ospina and General Holguin. So far I have declined the offer. I can not say just now whether or not I may take a different view of the matter after conferring with my countrymen, but this latest event will not in any way affect my decision."

General Pedro Ospina and General Holguin, the former minister of war of Colombia and the latter formerly finance minister, have arrived here to confer with General Reyes, a member of the pan-American congress. It is understood they will offer him the presidency of Colombia, assuring him that his taking office will bring peace to his country.

**Washington Waiting.**  
Washington, Nov. 22.—Save for the two reassuring dispatches from Consul General Gudgeon at Panama and Captain Perry of the battleship Iowa, lying off that port, neither the state nor the navy departments received any advice concerning the situation on the Isthmus. Great interest is felt in official circles here as to the outcome of the Chorrera expedition, for it is realized that the result of the engagement at that point will be decisive in giving either the Conservative or the Liberal element control of the Isthmus.

## STILL

## At Large are the Minster Burglars

## But Hope of Their Capture Not Abandoned.

The Bank was Fully Assured and the Adjuster Has Been There and Made a Settlement.

The Minster bank robbers are still at large, says the Anglaise Co. Democrat, but as detectives are at work on the case, hopes are entertained that at least the wounded desperadoes may be run down.

The bank carried burglar insurance in the Fidelity and Casualty company of New York, and this company has placed the case in the hands of the Pinkerton detective agency, a couple of whose sleuths have been at Minster and are carefully endeavoring to unravel the mystery. The guns abandoned by the robbers were taken in charge by the detectives. One is a single barrel Remington repeating rifle, well loaded, and the other a double barrel shot gun of Remington make.

The adjuster of the insurance company, John R. Elmer, was in Minster this week. He says the losses of the bank were satisfactorily adjusted. The damages claimed was for the two outside safe doors which were blown off, the outside doors badly wrecked and the fire proof part of the vault a complete loss. The steel strong chest was not injured and the burglars failed utterly in their effort to gain access to the cash.

He says the number of men in the gang was generally believed to be from twelve to fifteen. The night watchman, Lewis Valo, to whom credit is due for the prevention of success on the part of the raiders, fired fifteen shots in all, twelve into the bank generally and three at the burglars, being confident that he wounded at least three of the gang.

It is now known that the burglars had three rigs at the edge of the town, but one horse attached to one of them balked and they were forced to abandon it. They drove as far as a farm house in which Johnson Glins resided, where they stole another vehicle and fresh horses. They left this house at Russia, and from there six of the men boarded a Big Four train which departed for the east at 7 in the morning. The others drove on to Bradford Junction. Thursday, four strangers arrived in Marion, three of whom were wounded but they claimed to have received the wounds in a hunting expedition, and left the town shortly after being seen there.

## Recommend it to Trainmen.

G. H. Hausan, Lima, O., Engineer L. E. & W. R. R., writes: "I have been troubled a great deal with backache. I was induced to try Foley's Kidney Cure, and one bottle entirely relieved me. I gladly recommend it to any one, especially my friends among the train men, who are usually similarly afflicted." For sale by H. F. Vorkamp.

## SAILORS' NARROW ESCAPE.

## Exacting Experience of a Submarine Boat Crew.

The crews of the new "submarine" are subject to hair raising experiences occasionally even in the piping times of peace. For instance, the men on board the new French submarine Triton narrowly escaped drowning like rats in a trap the other afternoon. The vessel had gone out from Cherbourg for the purpose of making plunging trials with an apparatus invented for the purpose by M. Lebeuf. When in about seven fathoms of water, the plunger was made, and the machinery acted so rapidly that the ship struck bottom and sustained considerable damage. Water began to flow in rapidly, but the engineer ordered the "safer leads" (detachable weights affixed to the vessel) to be cast adrift, and the boat quickly rose to the surface, but none too soon.

And the accident happened in rather deeper water it is thought that nothing could have saved her. As it was she had a narrow escape. In the few minutes that she occupied in rising to the surface she took in much water, and her crew were panic stricken. Once on the surface the pumps were got to work, and a tug came and towed her into the arsenal for repairs.

## NEW X RAY INVENTION.

Designed to Show Objects in Their Proper Space Relations.

E. W. Caldwell describes in the current Electrical Review a new apparatus designed for stereoscopic vision by X rays. It has been developed in the laboratory at the Bellevue Hospital Medical college, New York city.

By using two sources of X rays in the same tube each eye views independently the shadow, with the result that the picture stands out distinctly, showing all the space relations of the objects viewed.

It is thought that this method will be of the utmost value to surgery, permitting immediate examination of broken bones, etc., as if they were viewed by the eye, with their positions accurately indicated instead of in silhouette effect, as has been the case heretofore.

## Camps For Consumptives.

Camps for consumptives will soon be a feature of hospital work near Boston. The project will be started with one camp, and additions will be made from time to time. Ten box tents will be arranged in a circle around an open air fire, and surrounding them will be a wall of duck eight feet in height. The patients will have an opportunity to test the virtues of fresh air, for the tents will receive no other heat than that obtained from the open fire, and for the coldest weather extra heat must be secured by means of sleeping boots, hot water jugs and felt blankets.

It is said that an exchange of machines between automobilists has more fine points than even a horse trade.

## WILL RACE THE WORLD.

Vanderbilt and Keene Enter a Great Automobile Contest.

William K. Vanderbilt, Jr., and Foxhall Keene have cabled their entrance as competitors in the great Paris-Vienna race, starting from the French capital June 15 next.

The race will cover a distance of 900 miles, and competitors from all the world will participate. For the first time in the history of automobilism an American made machine will take part in an event in a foreign country, in the very home of automobilism. The machine will be driven by an American, Foxhall Keene, who only a few days ago placed his order for the new American auto.

Fourier, the great French automobile, after whom the Keene machine is named, says it will develop a speed of nearly a hundred miles an hour, with a sustained speed of seventy miles.

Mr. Foxhall Keene was seen by a reporter of the New York Journal, and he said:

"I will drive an American Mors auto, the next year's model of that machine. Saturday's (Nov. 10) races demonstrated so surely the superiority of the machine that there is nothing left for me to do. I believe that eventually we will make machines here to beat the world. We seldom try hard at anything that we do not succeed in finally producing the very best—athletes, automobiles, anything."

"I look forward with a strong hope of winning that automobile race in Paris. It would be fine to win against the world's competitors. I was much encouraged by my success of Saturday, and I hope to be able to lower the record made then before I start on my trip to the Paris-Vienna meet."

It was not until very recently that Mr. Vanderbilt decided to enter the race. His inclination has always been that way, but Mrs. Vanderbilt has sought to dissuade him, in fear that an accident might befall him in going at the lightning pace that the auto racers strike.

It was Mrs. Vanderbilt's request that kept the young millionaire from entering the auto races held on the Brooklyna speedway. At this contest Fourier broke the world's record for a mile, with Foxhall Keene only a few seconds behind him. While Mr. Vanderbilt consented to stay out of Saturday's race he did gain his wife's assent to his desire to compete at the International championship.

## WATCHING THE LEONIDS.

The Sky Ablaze With Them For a Time at Cambridge, Mass.

The astronomers at Harvard observed about 400 Leonids in the early hours of the other morning and took numerous photographs, says a Boston dispatch to the New York Times. This planet, the earth, must have fallen in with a particularly numerous swarm soon after 4 o'clock, for during a half hour nearly a hundred flashed across the dusky sky.

Many of them were tiny rocketlike wanderers from the depths of space, soon engulfed and extinguished in the atmospheric deeps. But at intervals there came one that shone as brilliantly as Sirius or the very torch of Arcturus in the west. They were visible for several seconds and moved with a greater dignity than their smaller fellows, and their luminous, dusty track lingered long amid the clustered stars. Most of them were of a yellowish hue, but occasionally there was a red or blue shade.

He—"If you don't love me why did you marry me?" She—"Because you were the only man I cared to be divorced from."—Exchange.

The Eternal Woman—"I know that justice is blind," mused the fair defendant, adding the finishing touches to her toilet, which consisted of a Paris gown, a picture hat, and other beautifiers; "I know that justice is blind, but, thank goodness, the judge is not."—Baltimore American.

Event Celebrated at  
Grace Church

Last Evening.

O. M. Palcer and Miss  
Stone Wedded.

Young Lad Induced by Older  
Head to Pull a Fire  
Alarm Box

Which Made a Long Unnecessary  
Run for the Fire Department  
Team. Other South  
Side Notes.

At his residence on south Elizabeth street last night, Rev. W. J. Hagerman, of Grace M. E. church, performed the solemn ceremonies that united in wedlock Miss Susan Stone to Oliver M. Palcer. The ceremonials were witnessed by only a favored few. After the wedding, the bridal party proceeded to the home of the bride's parents on south Metcalf street, where a sumptuous nuptial repast was served. Customary hymeneal festivities succeeded. The bride is a charming young lady, highly esteemed by numerous admirers. Mr. Palcer is a popular south Lima resident with scores of friends. During the evening they were serenaded by a party of acquaintances. A brief levee was held to receive congratulations. The happy twain have already established themselves at 743 south Metcalf street. It is hoped no cloud of adversity may ever cast its shadows over their happy home.

Dressed chickens ten cents a pound at Crossley Bros., 715 south Main St. Intelligences among a family in the "white elephant" tenement house, on east Vine street, required the presence of officer Bacon this morning about ten o'clock. The man whom it is alleged was inflicting corporal punishment upon his wife, made a stren-

**A Bad  
Disease**

There is a certain disease that has come down to us through many centuries and is older than history itself, yet very few outside of those who have learned from bitter experience know anything of its nature or characteristics. At first a little ulcer or sore appears, then glands of the neck or groins swell; pimples break out on the breast, back or some other part of the body and fill with yellow pustular matter; the mouth and throat become sore and the tongue is at all times badly coated. Headaches are frequent, and muscles and joints throbb and hurt, especially during damp, rainy weather. These are some of the symptoms of that most loathsome of all diseases, Contagious Blood Poison.

This strange poison does not affect all alike; some are literally eaten up with it within a short time after being inoculated, while others show but slight evidence of any taint for a long time after exposure, but its tendency in every case is to complete destruction of the physical system, sooner or later.

S. S. S. is a safe and infallible cure for this bad disease—the only antidote for this specific poison. It cures Contagious Blood Poison in every form and stage, thoroughly and permanently. S. S. S. contains no Mercury, Potash or other harmful minerals, but is strictly and entirely a vegetable remedy, and we offer \$5,000.00 reward for proof that it is not.

**OUR MEDICAL DEPARTMENT**, which was established years ago, is doing a noble work in relieving suffering. Give our physicians a short history of your case and get their advice. This will cost you nothing, and what you say will be held in strictest confidence. With their help and a copy of our book on Contagious Blood Poison you can manage your own case and cure yourself at home.

ous unsuccessful attempt to elude the policeman. That functionary having a reputation as a sprinter, was however equal to the occasion of an exciting chase across lots. An imperative command to halt, followed by warning pistol shots, had the effect of slowing the pace of the fugitive, who was placed under arrest, being "taken over" without further incident.

The district convention of the Christian missionary alliance concluded its deliberations at the tabernacle on south Main street last night, after a three day's session. The meetings were largely attended by local exponents. A number of foreign delegates were also present. The religious services were conducted by Rev. D. W. Milan, of Cleveland; Rev. Kerr, of Bluffton; Rev. Kirk, of Wheeling, W. Va.; Rev. Davis, and Rev. Copley, at Findlar.

Grace church Ladies Aid Society held socially and financially successful meeting at Mrs. R. E. Wolf's, Wednesday evening.

Since the departure of Elder Moots, Dowleism in south Lima is upon the wane they having discontinued their meetings at the tabernacle.

Crossley Brothers, 715 south Main street, can save you money on meat and groceries.

Her birthday anniversary was pleasantly observed by Miss Avia Davis, at her south side home last night. A number of young guests assisted in making the event a happy one.

The home of Mr. and Mrs. James Rambo, on Reece avenue, was the scene of a delightful function last night. The Idlewild club of which Mr. Rambo is a member, assembled to enjoy a past nuptial reception, the host and hostess being recently married.

Crossley Brothers, one of south Lima's enterprising firms are contemplating the erection of a handsome modern business block on south Main street. The necessity of a public amusement hall in this locality is becoming daily more imperative. Numerous society, lodge and church events are compelled to occur up in the city, simply for the want of a suitable auditorium here. There has been a crying demand for a large hall for such purposes, but none have heretofore deemed themselves justified in constructing one. Messrs Crossley, have in mind the building of probably a three story edifice, to include six store rooms on the ground floor, with an up-to-date hall in the second story, surmounted by convenient flats for living purposes. They have given

"Laff every time you feel tickled and laff once in a while anyhow"—says Josh Billings, but it is very hard work to "laff" with the pangs of rheumatism or neuralgia going through your body. The "laff" will come after you use Ath-lo-pho-ros. It works right on the uric acid in the blood, which causes the trouble of Rheumatism and Neuralgia, and a relief will be had with the first bottle. 50,000 people have testified that Rheumatism has been cured by Ath-lo-pho-ros. A book has been written by the Athlophoros Co., of New Haven, Conn., which treats on the subject of the causes and cure of rheumatism, and will be sent free on application. the matter deliberate consideration, being convinced such a building would be very remunerative. The gentlemen think they would be justified in putting up the block immediately, but as one of the firm remarked this morning, even more so when the new machine shops are established in south Lima. There being several other concerns of importance contemplating locating here it is thought there be a general demand for a structure such as the Crossleys contemplate. In this event the public hall will be so constructed as to be conveniently employed for an opera house as one would beyond all peradventure be handsomely supported by south Lima. In fact the gentlemen are of the opinion a local play house would pay even now. The block will be one hundred feet wide, two hundred feet deep and three stories high. The enterprise manifested in this gigantic undertaking will certainly receive the entire approbation of south Lima residents, in whom local pride is a factor that always assures ultimate success.

The new building will be a credit to the locality and a monument to the enterprise of the builders.

His many friends will be pained to learn that William Pifer, the congenial merchant is precariously ill at his home on south Main street. So critical is his condition that friends and relatives are apprehensive of his recovery, the attending physician having little hope for his recovery. Last night it was thought he could not survive until morning, but he is still alive though it is feared inevitable dissolution is imminent.

Harvey Young, who went to Kenton several weeks ago to work in the new

oil fields there, has returned home. James Crumrine is suffering severely from an abscess upon his right eye, caused by a scratch from a twig while hunting, this week.

Members of the south Lima fire department are in receipt of a letter from Rev. Clarence Mitchell, formerly of the local church of Christ, but now pastor of the Wellsville, N. Y., church of Christ. He is gratefully successful in his new field. He anticipates spending the holidays with his mother on east Kibby street.

William Gosmer, on McPherson avenue, had his right hand smashed by a trip hammer at the steel works yesterday.

Rebekah degree staff meet tonight for practice. A good attendance is desired.

Friends here of Mrs. Howard Frazer, will be sorry to learn of her death at Martin, Texas, Monday. Deceased was formerly Miss Nellie Orr, of Kenton, well known to a number in south Lima. Her sudden demise is exceptionally deplorable owing to her being a bride only a few weeks. Immediately after her marriage to Mr. Frazer, at one time an electrician in Lima, they left for Texas, where he had just taken an important position. The funeral will occur at Kenton.

Mrs. Norah Stumm, on south Main street, had her right hand painfully scalded by spilling a portion of the contents of a tea kettle upon it yesterday. The agony endured was awful. It is feared the member will be permanently scarred.

Special Thanksgiving sale on all trimmed hats at Mrs. Stanyer's, south Main street.

The south Lima fire department responded to an alarm from box 47 yesterday afternoon, at 3:30 o'clock. A seven year old boy named Delbert Tabler, residing on south Jackson street, is responsible for what proved a false alarm. He had just been dismissed from the south Pine street school, when it presumed he was prevailed upon by older associates to do the act. That it was done deliberately is evidenced by the fact of his being compelled to climb upon a mail box to turn in the alarm. He will be arraigned before fire chief Coats, but owing to his age, will escape the just consequences of his deed. Yesterday's unnecessary run became a hazardous one when the department reached the C. H. & D. railroad tracks at the east Kibby street intersection. A fast freight was speeding along when the hose wagon dashed across the track not an instant too soon, as the train crashed by just as the rear wheels of the wagon cleared the rails.

## CRIME

## In Which a Babe was Perhaps Murdered

Is Supposed to Have Been Committed and the Coroner Asked to Investigate.

C. F. Bumgardner called on Mayor Bliss, Wednesday night says the Delphos Herald, and reported that while his gang of men was going to work in the morning on a hand car, they discovered the dead body of a child lying along the track, probably a mile east of the east corporation line near the end of the ties.

Near by was a newspaper, crumpled up and covered with blood, and bruises on the body indicated that it had been dropped from a train. The child was not fully developed and its sex could not be determined. The foetus was probably three or four months old and was accompanied by the placenta.

Under the circumstances the men did not deem it necessary to report the matter at once and they waited until they returned home in the evening. They buried the foetus along the track, in such a manner that if an investigation should want to be made, it could be easily unearthed. Mayor Bliss reported the matter to Coroner Burton, of Allen county, acquainting him with the details, and whether he will take any action looking to an investigation is not known.

An effort was made to see Coroner Burton this morning in regard to the matter, but he had been called out of the city and is not expected to return home until evening. If the facts as above given are true there will no doubt be an effort on the part of Dr. Burton to solve the mystery, or at least set aside all question as to whether there has really been a crime committed.

## THE LIMA DRY GOODS CO.

## This Big November Sale is a Merchandise Event by Which Every Household May Profit.

For several days we've talked about this Big November Sale, told you of the conditions under which it was brought about, told you that we proposed to close out all The Thomson Co. stock quickly as possible to make a place for the Great Holiday Stocks that will soon be crowding in. We told you that we proposed under these extraordinary conditions to give you some splendid bargains—give you a dollar's worth for 50c in many instances. And we did.

There never was a more generous response to a store announcement. You were well repaid for coming. Hundreds have been here again this week and carried the news to others. This is not a sale of a day—but of weeks—the whole month.

The Thomson Co. had a big stock of fall and winter merchandise, it must be all sold before we are through. You profit by it all.

These items only hint at the many good things—can't crowd it all into so small a space. Investigate thoroughly; it means dollars saved.

## An Ideal Millinery Department.

This Millinery Department is an ideal place to buy a hat; not wholly because of its pleasant, cozy and homelike appearance, or on account of its exceptional light and new furnishings, but because during this November Sale it offers you a selection from the newest, neatest and most stylish headwear, in many instances at about one-half the usual prices.

### Closed the Season in Royal Style.

#### New Life Injected Which Promises Well for Next Year's Races.

Elegant Spread Followed the Reception and Music and Toasts Kept the Guests Until After Midnight.

"The proof of the pudding is in the eating thereof," is a wise old saying that has come down from a wise old head and it has served its proverbial purpose on many an occasion; and fortunate were those who were permitted last night to be the judges of what proved to be one of the most delightful occasions in the history of the Matinee Driving Club. The proof of the pudding was on every hand, from the moment the guests were received until the last course of an elaborate menu, served in true Delmonico style.

The annual banquet of the club was served in the Oak dining room, which the public will be pleased to know is to be thrown open and conducted on an improved plan, and Mr. King extended another courtesy to the club by offering the use of his handsomely furnished private apartments for the reception which preceded the banquet. Courteous attendants received the members and guests, and during the early part of the evening they were refreshed from a flowing bowl of claret punch, which smacked of a master hand. In the private dining room adjoining, Frey's orchestra rendered its ever pleasing selections, and later were given elevated seats in the "Judge's stand," where they played during the serving of the repast.

The unique feature of the banquet was the manner in which the guests were summoned to the festal board and assigned their places. At the south end of the dining room an elevation had been constructed, draped in by portiers, and starter Phil Blume, with the significant red flag in hand, swept his eagle eye down the stretch and satisfied that the field was ready for the score, sounded the big gong above his head with his old time vim. Before its reverberation had died away the orchestra struck up a lively march and the guests entered. "Gentlemen I will now give you your positions," said the judge, with as much earnestness as he ever used on the track. "J. C. Simpson has the pole," and amid the applause that followed, president, D. W. Steiner,

owner of the well known horse called, took his position in the seat assigned to the toastmaster. "Gen. Sherwood, second," and so on down the list until all had been seated. Then without more ado the corps of obliging waiters took charge of affairs and the following tempting menu was served in courses:

Oysters raw. Celery. Slaw. Southerne. Bouillon. Olives. Pickles. Turkey with dressing. Cranberry sauce. Mashed potatoes. Cream Tomatoes. Lettuce. Sherry. Quail on toast. Asparagus. French peas. Fruit. Ice cream. Assorted cakes. Assorted nuts. Coffee. Cigars. Creme de Menthe.

The hour was late when the last of the viands disappeared, but there were toasts yet to come, and the remarks that followed, added the finishing touch to the delightful occasion. President Steiner, in a few introductory words, presented the honored guest of the evening, Gen. Sherwood, editor of the American Sportsman, and he responded in his most pleasing vein with touches of pathos and humor which merited the frequent interruption of applause. He began by complimenting the club on its continued activity, and referred to a notice in the late edition of his paper that Lima can boast of more trotters and pacers than any city of its size in the country. This he said was true and that no other city had offered to dispute it. He gave the assurance that there was never a better outlook for the breeders, and especially the small ones, and furnished statistics to prove his assertion, remarking that the blood of horses was most generally distributed. For instance, Ketchum, owner of Crescents, was a small breeder in comparison with several of the Millionaire horsemen, and yet he had made more money than any man in the United States with one horse. He humorously referred to the automobile as a means of recreation, and declared that owing to the number of them on the streets of Chicago it was more dangerous to go there than it was to war. The use of them had not injured the horse market in the least, and he did not believe the machine would ever have the effect that the bicycle, now so little used in comparison with a few years ago, had once had. He referred lovingly to the horse as a noble animal and drifted into poetry to the more touching sing its praises.

Mr. Trappett, secretary of the Toledo club, and Mr. Chittenden, one of its most active members, responded to toasts, and expressed themselves as delighted with the occasion to which they had been so cordially invited, and so royally entertained. They had a fund of good stories, the telling of which could not have been improved on.

The next to be called on were the prize winners of the season. Gen. Ellis, owner of Directo, made the best pacing record of the year, and Charlie King's Rose Gale captured the trotting honors. Each were presented with a large size picture of their respective horses, the owners seated in the sulky. Gen. Ellis delivered a most interesting speech, and incidentally uncovered a most noteworthy incident in his life, connected with the war. He referred to himself as having always been a horseback rider, and found himself at the outbreak of hostilities attached to the staff of Gen. Banks. In going across a field to capture a rebel flag that floated from a house, he kindly invited a farmer, who was plowing in the field to trade with him, and because of the dilapidated condition of the animal he got in exchange, he named him "Peninsula." Strange as it may seem the old gray turned out to be the fastest horse with the staff, and performed one feat which Gen. Ellis is pardonably proud to refer to. At the request of Gen. Grant, who prided himself on his horsemanship and the animal he rode, General Banks consented to arrange a horse race, and after the preliminaries had been agreed upon, Gen. Banks sent for the then Major Ellis and asked him to ride "Peninsula." Gen. Ellis consented, and on the day selected there was a field of several, including Gen. Grant, ready for the start. Down the road they went at a breakneck pace, when suddenly there appeared in front of them an opening in the road where a small bridge had burned away. "Peninsula" took it without faltering, but Gen. Grant's horse stumbled and fell. The brave rider fortunately escaped injury, but had to acknowledge himself beaten. "And," concluded Gen. Ellis, with a ring of admiration in his voice, "to defeat Gen. Grant, the grand man we still love and honor in our memory, was something few men were ever able to accomplish."

Following the toasts, the annual election of officers took place, resulting as follows: Dr. D. W. Steiner, president; J. W. Rowlands, vice president; Rollie Hot-

# A LINEN CARNIVAL

In every sense of the word, and one that if you miss it you will always have cause

to regret. For prices and qualities we have been quoting cannot be duplicated this season. One lot we have told you about had to be bought in 500 yard quantities at the one price. Another lot is where an importer had too many goods which he wanted to exchange for cash, and by these means we got them at a price and you get the benefit.

## LINEN TOWELS.

Nothing any more important in the household. We can supply every needed want for kitchen, bath or toilet, and for good hard service, heck is what you want. 10c, 15c, 20c and 25c each.

Thomas Maple, of Lima, was in the first of this week, says the Western Ohio railway company and secured the remaining right-of-way between here and Beaver Dam. The present plan is to run the electric route parallel and along the west side of the Lima road for nearly three miles to Job Steiner's, thence across

a small parcel of ground purchased from Sam Steiner, to the L. E. & W. railroad and parallel that line to Lima. A large gang of men are expected to begin work ere long, being with them a large living tent and barns for the horses.

# Men's Suits and Overcoats

There is a certain air and style about our CLOTHING that you don't get anywhere else—a liberality, a fineness of finish that is only produced by taking infinite pains in making. The most of a fit in a suit is in the coat, and the most of the fit in an Overcoat is in the collar, the lapels—that distinctive hang over the shoulders. It is there where style shows, and it stands boldly to the front in the clothes we sell.

We have just received from Hart, Shaffner & Mark a magnificent line of

## THE STAGE

Old Dan Tucker Saturday Matinee And Night.

"Old Dan Tucker" as presented by Dan Sherman & Co., has been pronounced a bright satire by the people throughout the country during the past two years. The play in itself is of minor importance, the specialties and musical numbers introduced almost continuously during the action of the comedy being the features that have placed this work at the head of its class. Some twenty pleasing, tuneful and novel specialties are given, among the most noted being The Four Musketeers, The Four Volunteers, The Tucker Quartette, Sherman and DeForest, The Monte Carlo Girls, Salvation Army, Messrs. Tiddle and Killment's Musical Bar.

The abundance of bright and pretty costumes, dazzling, tuneful music and scenery, make the production of "Old Dan Tucker" so closely resemble an elaborate extravaganza that theatre goers scarcely realize that they are witnessing a farce comedy, it being so different from the ordinary play of its class. Popular prices will prevail.

Great Luck of an Editor.
